**BID EP06/07 – 19**  
**RFP DESIGN & INSTALLATION FIRE ALARM & SPRINKLER SYSTEM**  
**CITY HALL & THE MUNICIPAL PUBLIC WORKS FACILITY**

As a result of the prebid conference and the tour of City Hall and the Public Works Facility, the City of East Providence has received numerous questions and comments regarding the subject RFP.

In order to insure that all issues are satisfactorily addressed the City has decided to defer this procurement to a later date. It has become evident that more preparation is needed to be performed prior to proceeding with the RFP process.

The City greatly appreciates the participation of all the attendees of the prebid conference. Your questions and insights will invariably contribute to the preparation of a much clearer and thorough requirements definition in the future.

Given the scope of this project, no timetable for the reissue of this RFP is currently available.

If you have any questions regarding this bid, please contact me at (401) 435-7570.
